

Brilliant Buttons

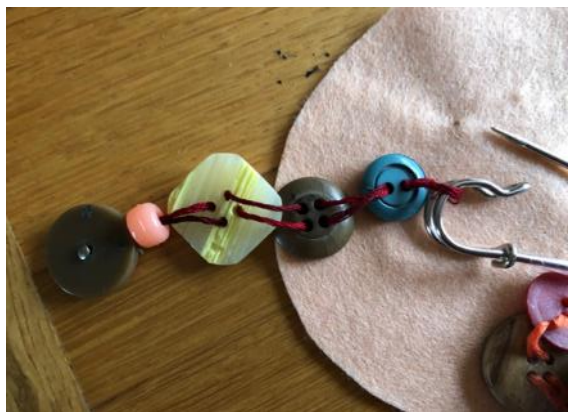

You may find that you have a collection of loose buttons that you could use to create something new!

- Choose your buttons, and arrange to lay out your design.
- Begin with a length of thread 50cm long.
- Fold your thread in half and tie a knot in the looped end.
- Thread the buttons to create your design.

Brooch – you could use a safety pin to make a brooch.

Keyring - attach the thread through the bottom link, make a loop and tie a knot, then start threading your buttons.
