The Fashion Museum Pre-Visit Lesson

A History of Fashion in 100 Objects

Level: Intermediate

Time: 60 minutes

Objectives:

- to become more familiar with The Fashion Museum, Bath
- to increase confidence in using vocabulary for clothing and materials
- to increase speaking for fluency, pronunciation and confidence

Warmer (10 minutes)

Arrange / hide the letters around the class (see the pre-prepared teacher sheets) and tell the students they have 2 minutes to find 16 pieces of paper, each with a letter on. Once they have been found, divide the students into two teams: they have 5 minutes to make as many words as they can. Monitor the vocabulary they produce, check for spelling errors and check understanding. The team with the most words wins.

They may have 'shoe', 'hat' & 'tie' in their lists, if not write them on the board and ask what they are (items of clothing). Go back to the letters and ask them to arrange them into the three-word name of a museum in Bath related to clothing. Once done, explain that this lesson will prepare them for a visit to The Fashion Museum.

Gap-fill (15 minutes)

Write the words below on the board:

<i>Doris Langley Moore</i>	<i>fashion specialists</i>	<i>modern and classical clothes</i>
<i>Bath</i>	<i>23 May 1963</i>	<i>130,000</i>

In small groups of 3 or 4, ask the students how they think the information refers to the history of the Fashion Museum. Give them 5 minutes, then ask one person from each group to explain what they have decided. Without giving the correct answers, hand out the student worksheet and ask them to complete the gapfill in their groups. Check as a class.

Answer: The Fashion Museum in Bath has a world-class collection of **modern and classical clothes**, from the 1600s to the present day. It was first named 'The Museum of Costume' and was opened in the Assembly Rooms on **23 May 1963**. It was created by **Doris Langley Moore**, a designer, collector, writer and scholar, who gave her famous private collection of costume to the city of **Bath**. In the summer of 2007, it was named The Fashion Museum. There are approximately **130,000** visitors to the museum each year; the visitors are a mix of tourists, **fashion specialists**, students and locals.

Clothes and materials (20 minutes)

Refer to the student worksheet; they will match the items of clothing in the box to the images. The names of the clothes should be revision at this level. Ss can work individually or in pairs.

Images of the following items are on the worksheet:

socks	coat	suit	blouse	dress	hat	jumper	trousers	jacket
a shirt	jeans	belt	shoes & boots	gloves	t-shirt	tie		

Ss check their answers in pairs or groups before checking as a class. Ask one student to write the correct answers on the board as they are read out, in a vertical list on the left side of the board.

1. Shirt
 2. Tie
 3. Suit
- etc.

Once complete, ask the students what materials each of the items of clothing are usually made from – this is a good way to judge what they already know and encourage participation as any guesses which may be incorrect for the current item of clothing being discussed can be written next to the correct item further up or down the list.

1. Shirt cotton, linen
 2. Tie silk
 3. Suit wool
- etc.

Ensure all the materials below are represented; then refer to the worksheet and ask the students to complete the table individually.

Cotton	Silk	Leather	Linen	Denim	Fur	Wool
shirt	tie	gloves	trousers	jeans	coat	suit
blouse		shoes	shirt		hat	jumper
dress		boots				jacket
t-shirt		belt				
socks						

Consolidation (10 minutes)

Ss write what they are wearing on a slip of paper (red cotton t-shirt, denim jeans, leather belt, etc.) which are collected and put in a hat. Pass the hat around, each student must take a slip, read it out and guess which student they are reading about. Monitor to correct spelling and pronunciation.

Presentation preparation (5 minutes)

Explain to Ss that on their visit to The Fashion Museum they must each take a photo which they will present in the post-visit lesson. The template is given below:

Time period:

Item & material it is made from

Fact 1:

Fact 2:

I chose it because:

To prevent multiple images of the same item of clothing, allocate a time period to each student. Although more than one student will have the same time period, it is unlikely that they will choose the same item to photograph, which will make the post-visit presentations more varied and interesting.

The options are: *1700 – 1800* *1801 – 1900* *1901 – 1950* *1951 – 2000* *2001 – 2015*

Letters for the warmer activity: cut up and arrange around the room.

The Fashion Museum Post-Visit Lesson

A History of Fashion in 100 Objects

Level: Intermediate

Time: 60 minutes

Objectives:

- to use and review the information learned from the Fashion Museum visit
- to review and revise the language related to clothes and materials
- to increase speaking for fluency, pronunciation and confidence

Warmer: (5 minutes)

General class discussion – review of the visit to the Fashion Museum: favourite / most interesting items, etc.

Small group presentations: (30 minutes)

On their visit to The Fashion Museum they each took a photo of an item of clothing from a particular time period given to them in the pre-visit lesson. The options were: 1700 - 1800; 1801 - 1900; 1901 - 1950; 1951 - 2000; 2001 - 2015. They will present their photo in this lesson using the template below.

Time period:

Item & material it is made from

Fact 1:

Fact 2:

I chose it because:

Divide the students into groups, each of which will have one person from each of the time periods. Allow them some time to prepare before they present their photo to the others in their group. The group decides on one person, based on information, good use of language, etc. to present their photo to the rest of the class. Monitor for pronunciation and correct vocabulary when necessary.

Optional additional activity: Small group discussion.

What are the main differences between the items chosen from each period?

Hot seat: (25 minutes)

Divide the class into two teams of even ability; one student from each team sits on a chair with their back to the board, with the rest of their team standing nearby. Explain that you will write a word related to the Fashion Museum on the board and the person sitting on the chair must guess what that word is, based on the descriptions given by their team-mates: they must not look at the board. The first seated person to say the word correctly wins the point. Explain that if you hear any language other than English, the other team wins the point. Use the information from the activity sheet.
